EXPERIENCE

Internship at Settribe IT Solutions

Worked as a Web Development Intern at Settribe IT Solutions for 3 months, where I contributed to both frontend and backend development of web applications. This internship helped me gain practical experience in full-stack web development and working in a professional team environment.

PROJECT

Hospital Patient Management System

Developed a Hospital Patient Management System using DBMS to manage patient records efficiently. Implemented features for storing, updating, deleting, and searching patient information to ensure accurate data handling.

Airport Check In System

Developed an Airport Check-in System using DSA in C, managing passenger data efficiently. Implemented data structures to handle check-in flow, queue management, and seat allocation.

SKILLS

- C language
- HTML/CSS/JavaScript
- DSA using c language (basics)
- Python(Django)-basics
- JAVA(basics)
- Problem Solving
- SQL
- Teamwork

CERTIFICATION

- Software Engineering Level -1
